## DOLLAR WHEAT

A Reality in Christian County Once More.

Two Crops Sold at That Price Saturday--Down Now to .95 Cents.

July wheat struck the dollar mark Saturday for the first time, when a representative of the Dunlop Mills paid E. D. Jones and Charlie Boyd \$1 per bushel for their crops of about 6,000 bushels delivered at Rich. The price opened ten days ago at 80 cents. Some sold at that price, some at 85 and a good many at 95 cents. J. D. Shepherd, D. E. Fowler and Buckner Leavel sold at 95 Saturday. The price was at 95 yesterday, but sales are slow, as the dollar price has spoiled the farmers. About ten per cent of the crop has been threshed and it is very fine, weighing 59 to 62 pounds. About 25 per cent of the crop has been sold, some in advance of threshing. The crop of the county will probably exceed 800,000 bushels. Dunlop's representative was seen yesterday and said the high price for the two crops Saturday, was due to a complication about the sacks it was in and that he did not want any more at that price.

### DEATH OF MRS. GOOCH.

Body Was Shipped to Adams, Tenn., for Interment.

Mrs. Martha Jane Gooch died Sunday afternoon at the residence of her son-in-law, Mr. N. A. Barnett, on East Ninth street, of illness incident to old age. She was 80 years old, a consistent member of the Methodist church, and a woman much esteemed by a large circle of friends. Funeral services were held by Rev. E. J. L. Southgate at 4 o'clock yesterday afternoon and the body was shipped to Adams, Tenn., where the interment will take place to-day.

Decesased was a native of Tennessee, but she had made her home in this city with her daughter for several years.

### ON HIS FEET AGAIN.

Sully, the Dethroned Cotton King, Will Soon Begin Business Again.

New York, July 8.—That Daniel J. Sully will soon be in business again is a statement contained today in an interview with Mr. Sully's counsel, who said: "All that is necessary now to do is to carry out the forms prescribed by the bankruptcy law, which will be immediately done. A sufficient number in majority and amount of creditors having voted in favor of the proposition upon the terms agreed upon, it follows that the master will go through."

### Why We Bought.

We were induced by the trade to bring on a heavier, better fruit jar than has been handled here in the past. Our customers tell us the jars they have been getting were so light as to be too easily broken, in carrying out and canning fruit. We have a car of the heaviest, best Mason's Fruit Jars made, and the trade is so pleased they are selling rapidly. Prices low and satisfaction guaranteed.

## PLATFORM IN FULL.

Report of Resolution Committee Unanimous.

Flurry Caused in the Convention Saturday Night By a Telegram From Judge Parker, But all Ended Harmoniously.

St. Louis, July 10.—At 1:20 this morning, the balloting for a candidate for Vice President was concluded in the Democratic Convention and Ex-Senator Henry G. Davis, of West Virginia, was declared the nominee. There was only one ballot. The final result of the ballot was, unofficially, Williams, 165; Turner, 100; Davis, 654; Harris, 58. Iowa did not vote.

The nomination of Davis was unanimous, and the convention then adjourned.

### Parker Sends a Telegram.

When the Democratic National Convention reassembled Saturday afternoon the startling announcement was whispered around in different circles that a sensation was to be sprung upon the convention at the eleventh hour.

It developed that Judge Parker had sent the following telegram:

### Declares Himself For Gold.

"Hon. W. F. Sheehan, Hotel Jefferson, St. Louis: I regard the gold standard as firmly and invocably established and shall act accordingly if the action of the convention of today shall be ratified by the people. As the platform is silent on the subject, my views should be made known to the convention and if it is proved to be unsatisfactory to the majority, I request you to decline the nomination for me at once, so that another may be nominated before adjournment."

"A. B. PARKER."

A hasty adjournment took place until after supper, when the convention met and sent a formal reply to Judge Parker, saying the money question was not to be an issue and his views on questions outside the platform were not inconsistent therewith. A discussion of the

matter was engaged in, the leaders having evidently agreed in conference. Mr. Bryan arose from a sick bed and after proposing amendments to the answer to be sent, opposed the reply upon the ground that it would be an endorsement of the gold standard. Williams presented the other side.

### Williams Proposes Reply.

"Mr. Chairman, I think you will bear me out in what I say. This is the first time in the history of the United States that a man already nominated for the greatest office on the surface of this earth has been so superstitious about a matter of personal rectitude and honor as to send a telegram to a friend asking him to decline the nomination for him, if he sees to have been informed, there is something in the platform which is not in accord with his own opinion.

"My friends, we purposely made this platform silent on the question of the money standard. We made it silent because we all agreed that it was not an issue in this convention (applause) and we all agreed furthermore that nothing should be placed in the platform which was not a campaign issue and the consequence was that in the Resolution Committee motions were made to table and those motions were carried every resolution on both sides which stood to bring about as an issue in this campaign the question of the money standard.

### All Knew It Before.

"Now, my friends, Judge Parker expresses his opinion for fear some body might think you did not know it. There is not in all this vast assemblage one single, solitary man who did not already know that Judge Parker was a gold standard

man. I have been one of the consistent, persistent and, perhaps, radical free silver men in the United States, and I knew that he was a gold standard man, and he never made any attempt to conceal it from anybody. He had supported our candidates and had said that, although he did not agree with us upon this plank, he was still a Democrat. (Applause)

"Now, my friends, we had also, as far as the question of the monetary standard was concerned in a campaign which was so fraught against imperialism, against executive usurpation, we purposely made a platform so far as the monetary standard is concerned upon which Bryan could have stood or upon which Grover Cleveland could have stood, or anybody else who was with us in the pending live campaign issues could have stood. (Applause.)

Mr. Williams then offered the following answer to Mr. Parker's telegram:

"The platform adopted by this convention is silent on the question of monetary standard because it is not regarded by us as a possible issue in this campaign and only campaign issues were mentioned in the platform. Therefore there is nothing in the views expressed by you in the telegram just received which would preclude a man entertaining them from accepting the nomination on said platform." (Applause.)

### Reading the Message.

Taking up the reply of the convention to Judge Parker's telegram, Mr. Williams read the first sentence. "The platform adopted by the convention is silent on the question of the monetary standard." "Does anyone deny, even Mr. (Continued on Fifth Page)

## POINTS ABOUT STUTTERING.

Seldom Does a Stutterer Like to Say  
Are More Grown Adults  
Than Girls.

Stuttering is defined in medical books as "a spasmodic affection of the muscles concerned in articulation, occasioned by erroneous nervous control, leading to a sudden check in the utterance of words or to a rapid repetition of the literal sound in connection with which the difficulty arises."

This, says Youth's Companion, is an example of a waste of good words in defining what we already know without definition. What the stammerer wants to know is not what he is doing, but how he can stop it.

Stuttering almost always dates from childhood, being often first noticed after some serious illness, such as scarlet fever or measles. It seldom begins in adult life, although a grown man who used to stammer as a child and has recovered, may suffer a relapse when run down in health or worried in business. It is a curious fact that girls stammer much more rarely than boys, but why this is so has never been satisfactorily explained. Those who have attempted to account for it usually drag in some ungallant allusion to the flexibility of a woman's tongue.

What causes a boy to stammer is a mystery. The sufferers are usually of a nervous disposition, and are often diffident and self-conscious—but it is hard to say whether the self-consciousness is a cause or a result of the defect. Unconscious imitation of a stammering playmate may be a cause. Sometimes adenoïd growths in the pharynx or a malformation of the roof of the mouth are contributory causes, and correction of the defect may result in a cure. Such an instance was recently brought to notice by a correspondent, a stammering boy who had lost the habit after a straightening of the teeth had widened the cavity of the mouth. The usual treatment consists in properly conducted reading, speaking, and breathing exercises, which must be modified to suit the individual case. Every stammering schoolboy has been told that the greatest orator of Greece cured himself by speaking with a mouth full of pebbles. If Demosthenes succeeded in that way, his success was due to his painstaking rather than to the pebbles.

### Black Skin Protects Against Sun.

On the bare arm paint a broad line in Indian ink and expose the arm to the strong sunshine. A slight inflammation sets in on the unprotected skin, but not under the black paint, which excludes the light rays (but, of course, not the heat rays). Some days after the skin is darker (sunburned), except where the Indian ink was painted, where is a white line in the skin. Exposing the arm again, the inflammation sets in only in the white line. The brown pigment caused by the sun (sunburned) at the first exposure protects the skin against the chemical rays. Therefore are negroes black, and travelers of white skin may protect themselves in the tropics from the sun by black or red paint.—London News.

### Conditions on the Isthmus.

On the east isthmus of Panama there is not a rod of sewer and only one bathroom. Even in the costly residence buildings erected by the French engineers there are no modern conveniences. The only water supplied for domestic purposes is brought in barrels from distant sources and it breeds mosquitoes by the million. In order to place sewerage in Colon it will be necessary to raise the city four feet. The entire canal zone will have to be provided with an extensive system of drainage, and to furnish an adequate supply of pure water will involve an outlay of millions of dollars.—Chicago Daily News.

### Leisure-Loving Spaniards.

The children of Spanish residents in Mexico are less energetic than their parents, and the change becomes more noticeable with every generation.

### Barkless Dogs.

## A WOMAN'S BACK.

aches and Pains Will Disappear  
If the Advice of This Hopkins-  
ville Citizen is Followed.

A woman's back has many aches and pains. Most times 'tis the kidney's fault. Backache is really kidney ache. That's why Doan's Kidney Pills cure it.

Many Hopkinsville women know this.

Read what one has to say about it:

Miss L. A. Hester, of 212 East 14th street says: "To walk for any distance or to over exert myself in any way, intensified the aching in my back from which I was a long time a continual sufferer, and if I caught cold it seemed to settle in the same region and made me almost miserable. When rising in the morning I felt stiff and sore, and often found it difficult to dress myself. Another symptom of my complaint was a weakness of the kidneys, which annoyed and distressed me beyond words. I doctor had but found little if any relief until I tried Doan's Kidney Pills, which had been strongly recommended to me, and which I procured at Thomas & Traherne's drug store. They did me a vast amount of good. The pain in my back ceased, the vexations were regulated and my health was improved generally. The pills perform what they promise in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

## WIDOWS' ATTRACTIVENESS.

One of the Sex Tells Why It Is That Men Prefer Their Company to That of Young Girls.

Statistics show that widows are far more attractive to men than are the young girls who have never taken matrimonial vows. All sorts of explanations are offered, but a woman who has closely observed the facts in many cases says that the explanation is most obvious and simple, reports the New York Tribune. A man is not long captivated by an inexperienced girl, and, however beautiful and charming she may be, the conversation never takes that intelligent and closely sympathetic turn that is natural to a man when he is talking to a woman who has seen more of life and knows men as they are.

The widow is more anxious to please than to be pleased, and a man can stand the most copious draughts of adulation; in fact, he can be intoxicated by the widow's subtle glances, and in such an intoxication he revels with a smile of content.

The widow caters to his whims. She is too wise to argue with him. She knows that arguments are the crypts of friendship and the everlasting doom of love. She understands that when a man leaves his place of business, he wishes to leave there all cares and perplexities. Consequently she does not try to force her opinions on him; but if he cares to talk of them she is capable of understanding the problems that make up the life of a man of business affairs.

The well-bred widow is always gracious. She may or may not care to marry again, but, having grown accustomed to a husband's comradeship, she enjoys the society of other men, and in that enjoyment lies one of the great secrets of her attractiveness to a lonely man. Her graciousness is charmingly apparent when greeting her friends.

The young girl fancies that indifference is a spur that enhances a man's fancy. The widow knows that a man's vanity is flattered by her gracious reception of him, and when either talking or listening she is animated and interested.

### CORPSE HELD NINE YEARS.

Body of Supposed English Noble  
Fecily Embalmed in Penn-  
sylvania Morgue.

A man who is believed to have belonged to a noble English family died from exposure in Wayne, Pa., nine years ago and his body still lies unclaimed in the morgue of that town, reports the Philadelphia Record.

Mack was employed for several years by R. H. Johnson, a contractor. He was a man of education and culture, and, according to rumor, which was the heir to a British title, which, for some mysterious reason, he could not or would not claim.

When the man died J. S. Pearce, at that time an undertaker, but who has since retired, embalmed the body, and decided to hold it until it should be claimed. No one ever claimed it, and, as the embalming was unusually successful, a number of efforts have been made by museums to purchase the body, but Mr. Pearce says he will not surrender it except to some member of Mack's family.

The body has been viewed by thousands of people, many of them Englishmen who hoped to identify it. The skin retains its natural color as in life. The nose has become unnaturally sharp from having been pinched by people who doubted if the man was really dead. Over the head of the mummy a cuckoo clock is kept going to keep him from getting lone some.

Mystery of the Baby.

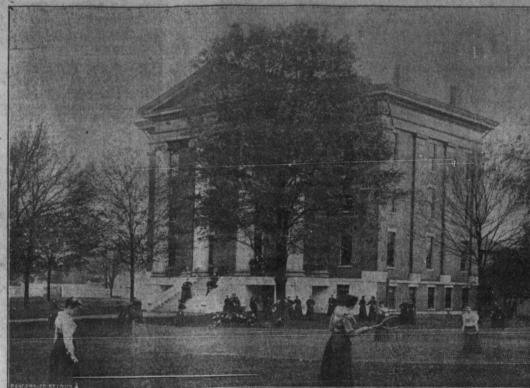

Wash him up a baby clean and dress him up real pretty and he will tell all advances with the most supercilious crossness, but let him eat molasses, gingerbread and fool around the coal hole for half an hour, and he will nestle his dear little curly head close up to your clean shirt bosom and be just the cunningest little rascal in all the world.—Durango (Col.) Democrat.

THE ONLY CURE FOR **Rupture**

Is the scientific adjustment of a truss appliance by some one thoroughly skilled in the Automatical and Mechanical Requirements of each case.

**DR. MORTIMER H. BROWN.**

The Eminent Specialist and recognized authority in the Mechanical Treatment of Ruptures and the adjustment of appliances for Rupture and Hernia can be consulted in person at the office below.

I guarantee to hold your ruptures perfectly under all conditions, with ease and comfort and give you as long a trial as you may wish with my truss free of charge. If I cannot satisfy you I do not want one cent of your money. I have the only truss made to cure Rupture and I am the only Truss Expert having confidence enough in his ability to guarantee satisfaction before expecting pay.

No Leg Straps. No Heavy Elastic Bands or Steel Springs with my Guaranteed Truss, No more Truss Torture or Danger from Strangulation if you accept my offer.

From the thousands of testimonials and letters I have I submit the following and will forfeit \$1,000 if I cannot show the original letters to anyone interested.

No Truss ever held this Rupture before, 20 inches in Circumference.

DR. BROWN, Dear Sir:—I wish to tell you of the good the truss you fitted to me has done. As you will probably remember, my case was one no truss had ever held before, as it was 20 inches in circumference it was a great annoyance and disfigurement to me. From the day you put the truss on my ruptured limb it has never been out, and after wearing it one month I took it off for over an hour in taking a bath and I continued to wear the truss until the fall and then took it off and have not worn it since.

Ruptured for Twenty-two Years Cured in Three Months.

"I had been ruptured on my left side for twenty-two years, during which time I had tried many a called and uncalled truss, with no benefit whatever. I was thoroughly disheartened, as I could not get a truss to hold my ruptures perfectly under all conditions, with ease and comfort and give you as long a trial as you may wish with my truss free of charge. If I cannot satisfy you I do not want one cent of your money. I have the only truss made to cure Rupture and I am the only Truss Expert having confidence enough in his ability to guarantee satisfaction before expecting pay."

Ruptured for Fifteen Years, a Prominent Distiller is Cured.

"About fifteen years ago I was ruptured on the right side by being kicked in the groin, and five years later from some unknown cause, on the left side. I knew no cure until July, 1889, when I began with Dr. Brown. After wearing the truss a few months I discarded it and had no trouble since."

Remember I give you a FREE TRIAL with my truss and unless you are fully satisfied you will not OWE ME A PENNY. Circulars free at Hotel or by mail.

## PARKER AND DAVIS.

The St. Louis convention has completed its work and the Democratic party is once more united and hopeful of victory. The platform was adopted without difference of opinion after the resolutions committee had agreed upon the terms of harmony. The money question is passed by as no longer an issue and the platform is a wise and patriotic deliverance, dealing with matters that vitally concern the people at the present time.

Judge Alton B. Parker, the eminent New York jurist, who heads the ticket, is in the prime of manhood, 54 years old, and a lifelong Democrat. He is a good Democrat, but many good Democrats, including Judge Parker himself, voted for a silver Democrat in 1896 and 1900 and silver Democrats can consistently and enthusiastically do as much with conditions reversed in 1904. Our candidate for Vice President is from the only Southern State that is under Republican rule. Henry G. Davis was a Democratic leader twenty years ago and though still years old is still Hale and vigorous. He is the richest man in his State and practically owns its mines and railroads. It ought to be an easy task for him to reelect West Virginia, where the Republican party is said to be torn by factions.

There is now no discord in the Democratic party. Bryan will of course support the ticket, like the patriotic leaders that he is. C. E. Land and others who followed him out of the party in 1896, will come back and take a fresh start and we hope once more be loyal Democrats. The candidates are all right, the platform suits everybody and no Democrat can be found any where who is not for the ticket.

Gen. Kropotkin is busy explaining how he will overrun India in the event England gets into the Russian war. At present the public is more interested in having the General explain how he is going to keep Japan from overrunning Manchuria.

## Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed you have no result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Halls' Catarrh Cure. Send for circulars, free.

## Buy Your Spring Suit Early!

You thus have a larger assortment to select from, and you get longer wear for the same outlay, with the added satisfaction of being among the first to appear in up-to-date apparel.

The four-button Sack Suit shown in the picture will appeal to good dressers who want to be just a little in advance of the "merchant tailor's" styles. It has the broad shoulder and chest effect which gives a full, substantial appearance to the wearer without that stuffed and padded look so common in other lines of ready-made clothing. Think of buying a suit like this of any spring fabric.

## At So Low a Price as \$12.00!

This is an ideal suit for business men who know the value of "looking prosperous." It is the product of the art-tailors of Schloss Bros., & Co., whose clothing we handle. We have other lines for other men at other prices. Before you buy your Spring suit, drop in and let us talk it over.

County Attorneys to Meet.

## BASE BALL.

Locals Win Three Straights  
From Henderson.

President of The League has Ordered Cairo Team Here For Series This Week.

According to an agreement made at a league meeting at Paducah in April, transferring the games scheduled here for the Fourth of July to Cairo, the president of the Kutta League has ordered the Egyptians here for three games, commencing tomorrow. The Hopkinsville team will, therefore, return here from Henderson to play the Cairo series.

### Saturday and Sunday's Games.

The locals went to Henderson Saturday and played the first of a series, winning by the score of 5 to 4. Hopkinsville won again Sunday, the score being 7 to 1. A double header was played Sunday, the locals being victorious in both contests. Only the first game counts in the percentage column, however. Morris pitched in the game for the Browns Saturday. Ferrell twirled for the locals in the first game Sunday, and Petifer in the second. The third regular game of the series was played yesterday but our teams closed before the result was received here. Alexander and Collins composed the battery for Hopkinsville in this game.

Clarksville defeated Paducah at Clarksville Saturday, the score being 11 to 2.

Cairo won from the Indians Sunday at Vincennes, the score being 7 to 2.

Sunday's game at Vincennes, between Cairo and Vincennes, was won by the latter. The score was 2 to 1.

There was no game at Clarksville Sunday between the Tennesseeans and Paducah, but a double-header was scheduled for yesterday.

### Friday's Game.

The game here between the locals and Paducah was one of the most interesting contests ever played in Hopkinsville, but was lost to the visitors after a hard-fought contest, in which eleven innings were played. Bomar pitched for the Browns, while McGill twirled for the visitors, and both men put up a fine game. Bomar struck out eleven men. The score was 5 to 3. The locals made one score in the fourth inning and two in the fifth. Paducah got a man across the plate in the fifth, one in the sixth and another in the seventh, tying the score. In the eighth, ninth and tenth neither side was able to score, but in the eleventh the visitors made a run. Hopkinsville failed to profit by her last hold of the inning and the game was lost. Meander knocked a three-bagger in the fourth inning and Bomar gave a similar performance in the fifth.

Henderson lost to Cairo in a very close game at Henderson, the score being 5 to 4.

Vincennes defeated Clarksville at Vincennes. The score was 5 to 3.

### Thursday's Game.

Hopkinsville won the second game of the series from Paducah and lost the third. The score was 6 to 5. The locals won the game in the fourth inning, when four scores were made by them. The runs were the result of good, clean hits, and the visitors were unable to play even at any stage of the game, although Paducah scored one in the ninth.

At Henderson Cairo lost to the Egyptians by a score of 10 to 3. The Egyptians got only two hits.

Vincennes had a walk over with Clarksville at Vincennes. The sand-diggers were allowed only

five hits, while the Indians made fourteen. The score was 11 to 2 in favor of Vincennes.

### On the Fly.

Hoepple, Cottam and Welsh were released by Hopkinsville Saturday, as the team did not need 14 men. Welsh has signed with Henderson, Cottam has returned to Little Rock and Hespel to Evansville.

Otto Mullen, lately with Greenville, Miss., Cotton States League, has signed with Henderson, and the only score the Henderson team made Sunday was on his home run.

He has developed into a pitcher since he left the home team.

An exhibition game will be played this afternoon between the Browns and the local "Tradewater team," that has been playing Dawson and other near-by towns. The Trade waterans say they can beat the regulars. No doubt a big crowd will turn out to see them turn the trick.

### PUT ON PANTS

#### Have the Naked Islanders at St. Louis.

St. Louis, July 8.—Several of the Igorotes who are on exhibition in the Philippines reservation donned "pants" to-day. Their new garment consists of a pair of bright red silk trunks almost skin tight. Only a few of the natives put on the new garb and they were roundly ridiculed by their companions who still retained the native costume. By the authorities in charge of the Igorotes it was stated that the trunks were but an experiment and it was probable that the natives would be allowed to return to their original costume, as the new one serves no better for a covering and destroys the anthropological value of the exhibit.

## ON UNIQUE WAGER

Atlanta Man is Pushing Wheelbarrow to World's Fair.

Pushing a wheelbarrow before him, J. A. Owens, of Atlanta, Ga., arrived in Hopkinsville Friday evening, and spending the night at Hotel Latham, resumed his journey to St. Louis the next morning. Mr. Owens in making the trip from Atlanta, Ga., to St. Louis in this manner, Mr. Owens is carrying out a bet he made in Charlotte, N. C., in December, 1903, when the Atlanta spirit was doubted by a North Carolinian. There are several conditions attached to the trip, but Mr. Owens proposes to fulfill each in turn and to arrive in St. Louis a winner.

The total amount of the bet is \$500. The failure of the city to erect a model of the new union passenger station makes it impossible for Mr. Owens to do more than to break even. The bet is divided into several parts. A certain sum is wagered that Mr. Owens would not sell a wheelbarrow from the car shed through the streets of Atlanta. An additional sum is bet that he will not average a certain number of miles an hour for the first two days of the trip, and \$250 is bet that he will not roll the wheelbarrow into the model of the new passenger station in St. Louis after having walked from Atlanta and pushed the wheelbarrow before him. Mr. Owens has lost this \$250, owing to the failure of the fair authorities to fulfill the conditions required by the city. Mr. Owens feels that he could contest this bet on a technicality, but does not propose to do so.

Mr. Owens is accompanied by W. B. Duke, who will see to it that the contestant makes the entire trip in the manner stipulated. The distance by dirt road and pipe between the two cities is 628 miles and 370 miles had been covered when

Hopkinsville was reached. He will have to make an average of 20 miles per day, and when he arrived here was four days ahead of time. He came from Clarksville here and intended to spend Sunday in Lexington. Sundays are not included in the trip. Owen's wheelbarrow is an iron frame, with a pneumatic tire for the wheel and weighs about thirty pounds. He carries fifteen pounds of baggage.

REV. J. W. T. GIVENS

Sketched by Rev. W. S. Ryland, of Busselville, in Baptist Argus.

Some years ago (it seems not many) I met a bright young man at the Davies County Association. He was a good deal above the average, and I wondered that, having an eye to the ministry, and being eager for an education, he had not been sent by his brethren to college. We tried in one way or another to find how he might go or be sent, but seemingly to no avail, and I thought I should see no more of him for some time. But shortly after, this hopeful and resolute young brother, J. W. T. Givens, put in his appearance as one of an excursion party at the opening of Bethel College; a gala day it was. To my pleasure and somewhat banting inquiry, "And what are you doing here?" he laughingly replied, "I am come to college." "But I thought you had no more than ten dollars," I said. "If I haven't now, it was the answer, 'it cost me two to get here,'" "and what will you do when that gives out?" I asked. "If I can't do any better," said he, "I'll have to go back home." And he staid and staid on until he got his degree, working his way through. He began in the boarding hall, cleaning lamps, serving table, and many other things, doing them so well and so cheerfully that nobody could think ill of him. After a while he attained the dignity of janitor, and later on began to preach. Nothing meanwhile discouraged him, nothing seemed to go wrong. He was always the same, a bright-eyed, smiling, hopeful soul, steadfast, undeviated, unrelaxed, in the front rank as student withal.

and no less valued by teacher and comrade as friend or brother. His career in college foreshadowed well that as preacher and pastor. Whence known he is as much beloved as he is admired, and has had prominent pastorates, notably that in Owensboro, Ky., at Walnut street church, and that of Salem Christian county. After a successful ministry in his native state I learn he is about to enter a faraway field. The prayers of many of the faithful will follow him and his gentle spouse, with their sweet children.

Mrs. Maybrick.

London, July 8.—The Associated Press learns definitely that Mrs. Florence Maybrick will be released as an ordinary prisoner on ticket of leave between now and Aug. 1. The authorities have no intention of granting her a free pardon, but cannot impose any restrictions on Mrs. Maybrick after her arrival in America.

Woodson on Top.

St. Louis, July 8.—Liberal promises are being made by the Parker managers to the men who have aided them in their fight. If Parker should be elected, Urey Woodson has the Imperial Revenue collectorship, now held by E. T. Franks, nailed down. Woodson is very well and so cheerfully that nobody could think ill of him. After a while he attained the dignity of janitor, and later on began to preach. Nothing meanwhile discouraged him, nothing seemed to go wrong. He was always the same, a bright-eyed, smiling, hopeful soul, steadfast, undeviated, unrelaxed, in the front rank as student withal.

"Roll Call. —  
"Meat Trust!" loudly did Cortelyou cry.

The campaign roll in hand.  
"Here!" was the ready and instant reply.

And the smell of the fat beginning to fry

Pervaded the whole of the land.

"Steel Trust!" and loudly the answer came.

"As quick as the lightning's glare;  
"Here!" and the caller marked the name

With the little marks which mean "the same."

And some more of the fat was there.

"Coal Trust!" Orderly Cortelyou cried.

His voice in the key of "G."  
"Here!" came the answer with great pride,

And more of the fat was quickly fried

For the use of the g. o. p.

"Railroad Trust!" then cried Cortelyou, telu.

And swiftly the answer ran: "Here!" with the cadence ringing true,

As the managers with abandon threw

Their fat in the fryingpan.

"Bank Trust?" loudly the name was called,

And the answer came straightforward: "Here!" and the bank trust gladly hauled

The goods they'd wrench'd from a land estranged,

And great was the fat that day.

Swiftly the roll was called, and all

At once to their names replied, Not one there failed to heed the call

That echoed along the street named Wail,

And oodles of fat was fried.
